Portfolio: thistish.github.io/Tish_portfolio  |  LinkedIn: linkedin.com/in/tishsirface

## SUMMARY

Full stack web developer with experience working across many different fields. Built 20+ projects, including three in small teams.

## TECHNICAL SKILLS

Programming Skills
- HTML, CSS, JavaScript, SQL, NoSQL
- React, Bootstrap, Tailwind, jQuery, Handlebars, EJS
- Node, Express, Sequelize, Mongoose
- Git, Figma, Adobe Illustrator

## PROJECTS

### In or Out | Project Manager & Backend Developer

- Built a responsive web app and RESTful API using Express, Sequelize, and Node, enabling users to log in and create or join events
- Developed to streamline planning disc golf outings, reducing the need for group texting and waiting for replies
- Maintained diligent communication with team members to ensure efficient progress
- Continuing to implement features like Google Maps API integration, calendar functionality, recurring events, and more

### Movies & Munchies | Project Manager & Backend Developer

- Utilized vanilla JavaScript and third-party APIs to suggest movies and meals, enhancing user experience for planning a night in
- Contributed to frontend development while learning Tailwind CSS
- Organized tasks and responsibilities using GitHub projects
- Expanding features to suggest movies and meals based on food types or movie genres
